Connect & Communicate

Interactive

- Knowledge translation through multi-stakeholder engagement.
- Dialogue, storytelling, and harvesting learning communities to nurture One Health for People, Pets and Partners.
- Listening, learning, and living together.

vs

Static

- Dispersing information without conversing, providing feedback or input.
- A data story to explain a position or point or sharing information that may not change over time.
- No social interchange.

Our Research & Development Approach

DIALOGUE
Informing research through collaboration and inquiry.

DISCOVERY
What we know thought we knew, and what we discovered.

DEVELOPMENT
Investing in today, while preparing for tomorrow.

Collaborate & Coordinate

About Us
We Envision One Health for People, Pets, and Partners™

Health in this context includes the physical, mental, emotional, and social well-being of people of all ages and the health and welfare of pets and partners (other animals) involved in delivering Animal-Assisted Human Services (AAHS).

The Canadian Foundation for Animal-Assisted Support Services (CFAS) is an impartial national registered charity that promotes equity, diversity, and inclusivity to support the well-being of Canadians and the health and welfare of animals involved in delivering AAHS.

The charity's programs encompass but are not limited to stakeholder engagement, special events, advocacy efforts, outreach and education, research, development, and the co-creation of National Standards of Canada (NSC) to foster Consensus-Oriented Decision Making (CODM) to establish essential best practices.

CFAS cultivates unity in diversity among multiple stakeholders and sectors to enhance public confidence, public safety, and to encourage solidarity across Canada's AAHS Industry-Sector.
